11/10 will buy more DLC or expansion
loved this game since mobile version

Fast paced mech action game with fair price
Good Voice acting by popular japanese voice actor
Control is kinda clunky with keyboard
yet i dont know the role of AI..they're kinda.....stupid?
this game should have multiplayer
and yeah, nothing can go wrong with price under \$15 and popular voice actor

Play this underrated game
i repeat, play this underrated game. I will only recommend this game if you are really desperate for a customizable mecha game. Enemy AI in this game is meh, the maps are all plain and empty and LOTS of frame drops. Mechs look great tho. fun basic but seriously has no one noticed the weapons are all stolen from armored core. Only recommended for those truly desperate for a mecha other than that no

the game don't tell you how the controls work. A game with decent customization and interesting premise, but falls short due to repetitive gameplay, unpolished mechanics, and short length. A lack of multiplayer/Co-Op (which the PSVita version had) hurts it a lot. My main gripe is that it fails to improve or expand on the mechanics or gameplay of Destroy Gunners (which Assault Gunners is based on) and instead comes off as a poor remake with better graphics. I personally liked how much better the boosting is in this game because it makes the game so much more fun as dodging is easier and gives you more options for movement.

If you're fan of games like Armored Core/Gundam or Border Break/ the original Destroy Gunners, or like games with mech customization, give this a shot. Despite its heavy flaws, I would still recommend this game because it's cheap and it's unique. If you're still unsure, I'd highly suggest you try Destroy Gunners Sigma, (a mobile game which is free) as the core gameplay is largely the same.

Pros
Decent Customization and Parts Variety
Improved boosting mechanics (in comparison with Destroy Gunners)

Cons
Repetitive and bland gameplay
Lack of full mouse usage (menu navigation)
Short (Can be cleared in under 5-6 hours)
Vague story
. Get this game, It's just perfect. If you love mecha action game with mechas and weapons customization, Assault Gunner HD Editions got you covered.

Assault Gunner HD was formerly a PS Vita game that eventually made it into the PS4 and PC.

Graphics:
The game's graphic is ancient, in a very good sort of way. While texture is ramped up to keep up with the current gen hardware. Low polycount per model allows hundreds of mechs to appeared on screen. And yes, literally anything above GEFORCE GT540M(an ancient graphic cards) can run this game on the highest settings possible and can run with 0 Hiccups. YES, you can run this game on a 8 year old laptop and it run it butterly smooth. Though the bloom effect is actually an old school rendering technique, it makes the game look beautiful yet bleak. I am extremely satisfied that SAHDE Inc managed to make a beautiful

game that can run on very old hardware without looking like brown crap.

Gameplay:

Assault Gunner HD is the forerunner of their Destroy Gunner series on mobiles. Thus a lot of assets came from it. What's new here is that this is their first mecha game featured customization. The game is as direct as it possibly can. You customized your mech, select a stage, boom in you go. Some stages you are free to blast away your enemies with little impunity. Some stages featured deadly boss that if you play on higher difficulty, will wreck you in seconds. Some stages have a timer(I hate it the most personally), some stages featured difficult boss and a timer(which forces you to complete the objectives asap and not killing enemies to pickup parts. Overall I am very satisfied of the gameplay, yes there is the dreaded timer but you can have loadouts that can shoot through multiple target at once.

Customization:

The Good: Has decent amount of stuff you can customized your mecha. You can also upgrade your mecha to become more durable at latter stages. There is also a good variety of weapons to choose from, your usual assault rifles, machine guns, laser rifles, plasma rifles, Laser cannon, Shoulder mounted cannons or missiles that can be choose at your leisure. But you need to grind the game to get them.

The Bad: Power Creep, most stuff you have early on are rendered obsolete as soon as you found something better. You can technically upgrade your mechs to increase survivability. Weapons are even worse, older weapon are so underpowered that they are rendered useless against later stages boss. Unfortunately, due to SHADE Inc need to sell their game. At the start of the game you already gain access to incredibly powerful weapons from the start, which rendered weapons you picked up useless.

Although I do use old weapons and mechs time to time, I hope SHADE Inc can make weapons less power creep.

Overall:

I love mecha game. And Assault Gunner HD on PC is just what I looking for. With such tiny storage, low requirment. It is an excellent mecha game in the age where mecha combat in increasingly sluggish or mech game in general a dying trend.. Easy, straightforward machine shooting games. Friendly to newbies. I can customise my units by equipping different guns and parts etc.

I saw some reviews mentioned in-game voices are not fully translated. I can understand Japanese, it won't be a problem for me. A big problem for me is actually that mission complete conditions are not clear enough in the game, for example, you will find the condition for unlocking mission 21 in the game is completing mission 5 but in fact there is additional condition. The official guide from Marvelous is helpful, I would recommend to read them if you suck. <https://marvelousgames.com/blogs/news/assault-gunners-hd-edition-mission-unlock-requirements-trophy-tips>

(You may find your AI friends are very stupid!!!)

Why no multi mode????!. Solid Port of the Vita version, no crashes for me.

Music and Graphics are okay, nothing special.

Controls are fine with Playstation 4 controller, I have not tried Mouse and Keyboard.

Simple gameplay, mindless Mecha shooting fun.

For the asking price I'd say pick it up.
